

EITAN GONENSKY

2134 S. Pleasant Ridge Rd., Rogers, AR 72756 | 818-383-6882 | eitan.gonensky@gmail.com | WEBSITE (TODO)

EDUCATION

University of Arkansas - Honors College Undergraduate

Expected May 2029

- Cybersecurity and Applied Mathematics
- GPA: 4.0

RESEARCH EXPERIENCE

NSF Research Experience for Undergraduates (REU) Program

May 2026 - July 2026

- Worked with Python/TShark to convert raw Power Grid network traffic into .csv files that agents can access and read
- Designed a multi-agent AI system to detect and report potential cyberattacks and recommend next validation steps
- Presented poster at the REU closing symposium, explaining the system's design and detection results to faculty and industry sponsors

Graph Theory Research with Dr. Warren Shull

May 2026 - July 2026

- Investigated spanning-tree structure and conditions in chair-free graphs
- Partnered with the research team to build contradiction-based edge-exchange proofs
- Used adversarial case analysis to find and eliminate configurations that would break the arguments

LEADERSHIP EXPERIENCE

Haas Hall Academy Computer Science Club President

August 2021 - May 2025

- Lead a team of 9 students in assigning engaging materials, practice problems, and programming challenges
- Organized and administered weekly meetings and club fundraising events
- Raised over \$1000 for collaborative club events and competitions
- Recruited new members and enhanced existing members' programming skills

PROJECTS

OpenAI Build Week: Human-in-the-Loop Network Security Agent

July 2026

- Co-developed a multi-agent system that lets a network-security agent ask trusted users for context before flagging traffic as malicious
- Designed the interaction flow for collecting targeted human responses and converting them into a structured allow-or-drop decision returned to the network agent

CERTIFICATIONS / HONORS

- University of Arkansas Chancellor's List
- Charles D. Brock Scholarship
- Honors College Study Abroad Grant to attend the CIS Abroad Semester in Seoul - Sogang University - Fall, 2026

WORK HISTORY

Professional Business Systems Inc. - Warehouse Associate

June 2023 - May 2024

- Received supplies and verified them against receiving sheets
- Organized supplies in assigned bins, maintaining a well-organized and tidy warehouse
- Processed an average of 100 supply orders weekly with 100% accuracy

SKILLS SUMMARY

Java, Python, C++, OpenAI Agents SDK, LaTeX, Microsoft Office, E-Automate ERP

CAMPUS AND COMMUNITY INVOLVEMENT

- CyberHogs Cybersecurity Club - Member
- Arkanssec Cybersecurity Club - Member
- University of Arkansas Phi Mu Epsilon Math Club – Member
